12:30 - 13:00	Group Retrospective - Lacked, learned, liked & longed for
13:00 - 14:00	Pizzas, photos & goodbye

Group Restrospective

After the presentions groups will meet for a short retrospective on the four L's:

- **Liked:** What parts of the project did your group enjoy or think went well?
- **Learned:** What new skills or knowledge did your group gain during the project?
- **Lacked:** What resources or support were missing that could have made things better for the group?
- **Longed For:** What do your group wish had been available to help the project succeed?

Each group will receive a link to fill in the retrospective

Pizza, photos & pharewell

We will finish the project by having pizzas and a common photo of the whole group.

So remember to wear your project t-shirt on friday!!

ChatGPT tips on eating pizzas

- **Handling Toppings:** Be mindful of loose toppings. Tilting the slice slightly upward can prevent them from sliding off.
- **Crust Consumption:** Whether to eat the crust is a personal choice. Some enjoy it, while others leave it behind.
- **Napkin Use:** Keep napkins handy to manage grease or sauce, especially when eating with your hands.
